

"Lady of Winter"

Goddess Invocation, Solstice 2008

Written by C. Pennington & J. Morgan

Lady of Snow, and Ice, and winter nights  
Hoar frost's mother  
Stretch forth your silver white hand  
Blanket the land with whispers of snow  
Shroud the world in weighted silence

Lady of cold, and frost, and winter days  
Jack Frosts Dam  
Wrap the world in a rim of ice  
Cover the hills with tears of crystal  
Drape the land in winter's song

Lady of Winter come and witness  
Lady of frost and ice come and watch  
Lady of the lands longest night come to our call  
Welcome lady!

Hail and welcome.

"The Green Lord of Winter"

God Invocation, Solstice 2008

Written by C. Pennington & J. Morgan

Green Lord of Winter  
Hunter, dressed in shadows

Green Lord of Winter  
Lover, dressed in snow

Green Lord of Winter  
Father, dressed in warmth

Green Lord of Winter  
Gift giver, dressed in silver and gold

Green Lord of Winter  
Consort of the Star-Eyed Lady, dressed in love

Green Lord of Winter  
From my hearts depth I call

Green Lord of Winter  
Walk upon the land once more

Green Lord of Winter  
I call you

Green Lord of Winter  
We call you

Green Lord of Winter  
The world calls you

Green Lord of Winter  
Welcome!
